PROJECTS

Product App   NextJs, Tailwind, Redux
https://products-app-ashy.vercel.app/

Developed a product management application using React and Redux, enabling users to add, remove, and filter products. Implemented cart functionality, allowing users to place orders and check order status.

Brainly Study Card   ReactJs, Redux, Bootstrap
*https://hyggex-gray.vercel.app/*

Developed a Brainly Study Card clone using React and Redux, featuring various tabs such as Study, Test, and Quiz. Integrated a FAQ section for user support and enhanced user experience.

Order Management   ReactJs, Redux, Chakra-UI
https://orders-list-eight.vercel.app/

Developed a product management application using React and Redux, enabling users to add, remove, and filter products. Implemented cart functionality, allowing users to place orders and check order status.
